The Canadian Academy of Engineering comprises many of the country's most accomplished engineers, who have expressed their dedication to the application of science and engineering principles in the interests of the country and its enterprises. Members of the Academy are nominated and elected by their peers to honorary Fellowships, in view of their distinguished

achievements and career-long service to the engineering profession. Fellows of the Academy are committed to ensuring that Canada's engineering expertise is applied to the benefit of all Canadians.

The Canadian Academy of Engineering works in close cooperation with other senior academies in Canada and internationally. It is a founding member of the *Council of Canadian Academies*, along with the *Royal Society of Canada* and the *Canadian Academy of Health Sciences*. The Academy also works closely in engineering matters with *Engineers Canada (Canadian Council of Professional Engineers)*, the *Association of Canadian Engineering Companies*, and the *Engineering Institute of Canada*, along with their constituent organizations. The Academy is also a member of the *International Council of Academies of Engineering and Technological Sciences*, which includes some 24 similar national bodies around the world.
